

# *Corporate Capability Statement*

---

WFT Engineering, Inc., is a professional MPE engineering design firm with the goal of "Meeting the Client's Requirements" for cost, scope, schedule and technical competency on all projects.

Our firm specializes in the design of mechanical, plumbing, electrical, fire protection and life safety systems for the construction industry in the Mid-Atlantic region and overseas. Our project experience ranges from the design of site services for commercial, government and institutional facilities to mission critical services including laboratories and other medical facilities. Our firm also has extensive experience providing professional design and construction related services for security projects.

WFT Engineering's 30-person staff includes degreed and registered mechanical, plumbing, electrical, fire protection and life safety engineers; mechanical, plumbing, electrical and life safety designers; CAD designer/draftspersons and administrative personnel.

- WFT Engineering is an **SBA / SDB and MDOT** certified, professional engineering design firm.
- WFT Engineering's design review committee assures accurate design and value engineering.
- Winner of the 2000 Washington Building Congress Craftsmanship Award for The Bell Atlantic Woodley Dial Center Switchgear Mods Project.
- Winner of the 2006 Washington Building Congress Craftsmanship Award for The Cabot Tech 2N System Upgrade.
- WFT Engineering has the capability to produce high quality CAD design and construction documents utilizing the latest versions of AutoCAD (2007, 2006, 2005 and 2004) as well as the advanced 3D and intelligent CAD functions of Autodesk Building Systems 2007, the raster-to-vector conversion capability of Autodesk Raster Design 2006 and the versatile export functions of AcroPlot 2006.
